

## **Smoking Cessation Medications**

The Plan covers two 3-month attempts to quit smoking or up to 6 months of smoking cessation medications per year, if needed at no cost to you. If after 6 months in the same year you still have not quit, you are eligible to purchase smoking cessation medications (or other non covered drugs) through Caremark Mail Service. You will pay the full cost of the medication but receive the Caremark Mail Service discount. Each year you are eligible for up to another 6 months of smoking cessation medication through your Caremark benefits at no cost to you.
